County Fathers Kill Supervisor Moore's Plumbing Ordinance

SAM JOHNSON'S MOLOKAN TRIP

Supervisor H. T. Moore's plumbing ordinance, at the Supervisor's meeting last night, was killed by a vote of four to two, Lucas and Moore voting for it and Adams, Archer, Paele and Cox voting against it. The latter three declared that the proposed ordinance was class legislation.

Lucas hoped that if the ordinance passed there would not exist a similar condition of affairs as had existed in the matter of the horsehoers' examinations. He spoke of the gentleman who had the examination of Japanese applicants coaching applicants for licenses before the examination, so they would be sure to pass.

Chairman Adams was of the opinion that the ordinance would be expensive to the County and the examination might prevent many good men from following their trade. He declared he knew that if certain men were to be examined there would be certain others who would never be passed.

Moore stated that the idea of the ordinance was to insure sanitary plumbing. If the inspector of the Board of Health had to take the examination now he would fail to pass. It was his idea that the Health Board's plumbing inspector should have to pass the examination. Adams said there was nothing in the ordinance so requiring. Moore said the expense to the County would amount to little more than the cost of printing certificates.

Sam Johnson's Trip.

The Roads Committee, Lucas and Adams, reported having given permission to Road Supervisor Sam Johnson to go to Kauai, with the Molokans, to act as a Russian interpreter, to be gone several days.

Moore thought it improper that such action should have been taken without the consent of the Board. Sam was getting \$250 per month to work for the County, not for private corporations or individuals. Lucas said it was but right to assist people trying to do the country good. J. B. Castle was spending \$20,000 to get good people here, he was a philanthropist, and the least the Board could do was to lend him a man, even if he was a salaried County officer, when such an occasion as that under discussion arose. "If Mr. Castle had brought American citizens into the country he would not need an interpreter," said Moore. Lucas said the Molokans had taken out their first papers and would before very long all be good American citizens.

While the discussion proceeded Chairman Adams passed the following note to Supervisor Cox, by way of Stenographer Aea and Supervisor Lucas, both of whom read the note before handing it along: "Move that the action of the Road Committee in sending S. Johnson to Kauai meets with our approval." Cox so moved, referring to the note as he made the motion, and it was carried, Moore alone voting against it.

Contracts Approved.

Lucas said a contract had been let to Bertelmann for the Alaia park stand. Adams thought the action should come from the Board as a whole. It was so arranged, the Board endorsing the letting of the contract and \$1149 was appropriated to cover the expense.

Lucas reported on bids for the concrete bridge on the Pal road, Koolau side. The contract was let to L. M. Whitehouse, the lowest bidder by \$110, his bid being \$6,549. Moore asked if the bid had been made on specifications revised by the County Engineer. It had. Moore moved that "the signature of the Chairman and County Clerk be sufficient to bind the contract." Carried.

Lucas thought there should be a man in Waianae, interested in the work, to serve without pay in the road supervision. He moved the appointment of Frederick Meyer, as road overseer, to serve without pay, beginning March 1st. Motion carried.

Lucas said it was nothing to him; merely a proposition of giving the County good service.

Expensive Park Expert.

Lucas said Park Expert Robinson was here and would remain a month. Moore thought it a pretty expensive proposition, \$500 to bring him here to spend only one month. He should appear before the Board and make some kind of an explanation as to what he expected to do. It had been expected that he was here for a definite work for the Board. Lucas said a meeting between Robinson and the Board could be arranged. He thought Robinson could do what he had to do within a month.

Lucas reported that roads would be

in good condition for the Floral Parade on Washington's birthday.

The Board received from the road department a detailed statement of expenses for January. Payrolls amounted to \$10,886.26, and material and supplies, \$6,612.10, making a grand total of \$17,498.36. On February 1st, there was a balance of \$1.61.

Adams Lane Kicks.

Residents of Adams lane, without signing their names, receiving no attention because of this omission, wrote to ask that Adams lane get a "little share of improvements and cleanliness." It had not been swept in many months, while Garden lane, with but two residents, gets frequent cleanings.

E. O. Hall & Son wrote to say they had wired for wire, as called for by the electric department.

Tax Assessor Asks Help.

Tax Assessor Holt drew the Board's attention to the law on collection of taxes. He thought the Board could assist in collection from County employees. Referred to ways and means committee.

Archer said a government employee should pay his taxes or be fired.

Sidney M. Ballou called attention "to the almost impassable condition in which the western end of Judd street is," requesting that the road be finished to correspond with the rest of Judd street. Referred to the roads committee.

Bishop Estate's Offer.

Superintendent of Public Works Holloway wrote to say that the trustees of the Bishop estate have made arrangements with the San Francisco Bridge Co. for the filling of certain land makal of the Ala Moana road and Waikiki of the Territorial Sewer Pumping Station. He thought the government should acquire title to this ditch. The Bishop estate was willing to deed a strip 10 feet in width from the Ala Moana to deep water, providing a sewer is constructed within two years.

Lucas moved that the Board ask the Public Works to proceed to acquire the strip, the County to put in the sewer. Carried, Moore voting against it.

County Should Have Sewers.

Moore strenuously protested that the Territory haggled the revenue producing portion of the sewer department while throwing the expensive and untemperative part of the system on to the County. He thought the County should have the whole sewer system or none of it.

Eggs and Giant Powder.

Residents of Kailhi, 11th Precinct, decried the condition of the road beginning with the extension of School street at the Insane Asylum up to the School House in Kailhi valley. Especially do they call attention to the way giant powder is being used at the stone quarry. "Ovens have been wrecked by the shock and residents are unable to raise any fowls as the explosions prevent eggs from hatching."

Referred to the roads committee, though, in the opinion of some it should have been referred to the committee on eggs and other explosives. Motion made Light.

Petitions were received and read for eggs and other explosives.

Corpor of Quarry and the road leading from the old Lishman quarry to Lualaba street.

Corpor of Young and Keaumoku streets. (Pawaa Improvement Club).

On Young street, Waikiki of Keaumoku street, near Aloha lane. (Pawaa Improvement Club).

Mapoa Heights Ave. and Manoa road; Manoa road, near Manoa Golf Club; Manoa road, near premises of Mrs. Mary C. Manoa.

Improvement Club's petition. Manager Gartley of the Hawaiian Electric Co. has assured the Club that the County may have the gratuitous use of poles of the company now maintained on the Ewa side of Manoa road, for wires necessary.

Light petitions were referred to the appropriate committee.

Impachment Dropped.

Wade Warren Thayer, attorney, who made charges against Deputy Sheriff Geo. Kekauoha of Koolaula, saying he was a rascal, wrote to say that he was ready to back up his statement but not to circulate a petition for Kekauoha's removal. The Board had written Thayer that it would take action if he presented a petition as per requirements of the County act. Lucas thought some investigation should be made. Thayer's letter was filed and for the present the matter ends there.

To Circle Punchbowl.

Secretary Wood of the Promotion Committee sent along an epistle from the Prospect Heights Improvement Club, with the Committee's approval.

The Improvement Club suggested the extension of Prospect street to Punchbowl road on the Ewa side out to the Federal Experiment Station on Waikiki side, thus completing the circuit of Punchbowl, adding a beautiful driveway to the town. Referred to roads committee.

College Hills residents petitioned for electric lights.

Someone remarked that Manager Gartley of the Hawaiian Electric Co. resided in the College Hills tract.

Complained of Peck.

Men of Waikane and Koolau complained that Road Overseer Peck used road men for his private work and then put them on the public payroll.

Moore and Lucas stated that Mr. Peck had explained that it was all a mistake; the foreman had put the men on the payroll by mistake. Peck had used the men, two of them, but expected to pay them out of his own pocket.

Present at the meeting were Supervisors E. R. Adams, in the chair; H. T. Moore, Frank Archer, J. K. Paele, Andrew Cox and John Lucas, County Clerk, Kalaupaka, Stenographer Aea, Electric Light Superintendent W. L. Frazee, Criminalologist H. T. Lake, E. R. Bivens, L. Parriah, Judge W. J. Robinson, Clerk Buffandeau, Engineer Gere and members of the press.

At 10:30 the Board adjourned until the 27th, Tuesday next.

GOOD BASEBALL PROMISED

There will be two fast games of baseball played at the park tomorrow and those who have 25 cents to spend will certainly get a good afternoon's entertainment.

The All-Portuguese team will meet the Diamond Heads in the first game. This will be a struggle for blood as both these teams are looking for reputations. Each has desires to some day be in the League. Freitas will be in the box for the Portuguese and Lemon and Desha will do the slab work for the Diamond Heads.

The H. A. Co. and Punahou are creating much interest and their game is sure to be a warm one. These two are old rivals and it is a sure thing that the score will be close. Hampton was to have pitched for the H. A. C. team but sailed yesterday for Maui, where he will visit Cogswell. It is quite possible that Reuter will be in the box for the Reds. Eddie Desha is in good shape for his game and can be depended upon to pitch a hard game.

There is sure to be a large crowd on hand to witness the sport and the management have kindly offered free admission to all pa-u riders.

PASSENGERS ARRIVED.

Per S. S. Ventura, from the Colonies, Feb. 21.—For Honolulu: Mrs. A. F. Lewis, Master Donald Lewis, A. L. Okenham, Miss H. G. Hamlin, Miss J. Hamlin, Mrs. A. R. Okenham, A. Friers, Mrs. G. L. Health of American Women

A Subject Much Discussed at Women's Clubs—
The Future of a Country Depends on the
Health of Its Women.

Mrs. T.C. Willadsen Miss Mattie Henry

At the New York State Assembly of Mothers, a prominent New York doctor told the 500 women present that healthy American women were so rare as to be almost extinct.

This seems to be a sweeping statement of the condition of American women. Yet how many do you know who are perfectly well and do not have some trouble arising from a derangement of the female organism which manifests itself in headaches, back aches, nervousness, that bearing-down feeling, painful or irregular periods, pelvic catarrh, displacement of the female organs, indigestion or sleeplessness? There is a tried and true remedy for all these ailments. Lydia E. Pinkham's Vegetable Compound has restored more American women to health than all other remedies in the world. It regulates, strengthens and cures diseases of the female organism as nothing else can. For thirty years it has been curing the worst forms of female complaints.

Such testimony as the following should be convincing.
Mrs. T. C. Willadsen, of Manning, Ia., writes:

Dear Mrs. Pinkham:—
"I can truly say that you have saved my life and I cannot express my gratitude to you in words. For two years I spent lots of money in doctoring without any benefit for female irregularities and I had given up all hopes of ever being well again, but I was persuaded to try Lydia E. Pinkham's Vegetable Compound and three bottles have restored me to perfect health. Had it not been for you I would have been in my grave to-day."

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail

Mrs. Pinkham invites all sick women to write her for advice. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Her advice and medicine have restored thousands to health. Address: Lynn, Mass.

THEY TALK PROMOTION ARRIVES ONE DAY LATE

ADVERTISING ISLANDS IS DISCUSSED BY COMMITTEE

PARADE TOMORROW WILL BE BIGGER THAN WAS ORIGINALLY EXPECTED BY THE PEOPLE.

But little business of real importance came before the Promotion Committee at its meeting yesterday afternoon, although some interesting discussion was had concerning the result of advertising the islands. The usual amount of enthusiasm was exhibited, however, by the members concerning the accomplishment of their work and the making of new plans for future efforts.

It was the opinion of all that the parade will be a bigger success than it had ever been anticipated. It was stated that fully 40 automobiles had already been entered in the parade, and there is a possibility that a few more will still come in before the event "takes place."

The plan of having the Promotion Committee lead the parade in a special car, decorated for the occasion, will not materialize, for A. A. Young, who had promised to furnish a car for that purpose, found that he had none available which would register the speed, as the leading car should do in order to keep the rate of travel within a certain limit. He has one car of that nature, but that is for his own use, although he has offered the members of the committee that they might ride with him.

As nearly all of the members would like to be with their families on that occasion, only two of the committee will probably take advantage of Mr. Young's offer.

It was decided by the committee to offer prizes for the best amateur photographs to be taken of the parade. The first, second, third and fourth best pictures presented will be awarded \$10, \$7.50, \$5 and \$2.50 respectively as prizes.

Conditions under which people may compete for the prizes consist of an agreement that all photographs submitted will be retained by the committee with privilege to use if they so desire, and that the negatives of the pictures receiving the prizes will be claimed by the committee as its property.

As the committee desires to have the features of the parade advertised as much as possible, especially the pa-u riding, arrangements are to be made with W. M. Langton, editor of the "Paradise of the Pacific," to publish a special issue devoted to the parade, and this will be sent broadcast to the states. Having been told that the committee was wanting him to put out a special edition, Mr. Langton came before it yesterday afternoon, and talked the matter over with the members, who will give their moral support to the enterprise to aid in getting the necessary amount of advertising to make the publication of a special issue possible.

Much interest, it was stated, is being aroused throughout the states in the coming yacht race, and the mem-

ber of the committee stated that in their opinion the race would do more to advertise Hawaii than many people now realize.

Secretary Wood explained to the committee how a variety of things are combining to aid in advertising the islands. Photographs that are being taken here are being sent to various parts of the states. Bishop Hamilton, while here, took a number of pictures, and in traveling over the United States, he has said, he will exhibit them. He declared he is sure to speak of the Hawaiian Islands wherever he goes. Many write-ups are to appear in various magazines of the automobile parade and of the pa-u riders.

Samples of pineapples have been sent by Mr. Wood to various places on the coast, and these will be placed on exhibition there. Advertising matter has been freely distributed, and there are now on hand to be sent out, ready for mailing, about 2,000 pieces of advertisements.

Advertisements of the automobile parade and of the pa-u riders.
